FEATURES

- High resistant fabric: Nylon 500D (Black, Coyote), Cordura 500D (Nato Green)
 - PU coating (polyurethane, non-tear polymer)
 - Double YKK® zipper Gauge 10
 - Reusable metal rings (x3)
 - Internal / external elastic loops
 - Metal eyelet for water flow
 - Max capacity +/-20 lightsticks*
 - 4" and 6" Lightsticks compatibility (10cm and 15cm)
 - Dimensions: 195 x 70 x75mm (LxWxH)
 - Empty weight: 90 grams
- * (Interior: 6" lightsticks x 5 + 4" lightsticks x 9; Outside: 6 lightsticks)

DESCRIPTION

- Tactical transport of lightsticks in a bundle or in a holster format
- Preparation time reduced
- Elastic loops and metal rings allowing separation of colors
- Fast and discrete implementation with one hand and wearing gloves
- MOLLE Fastening (belt/chest/backpack...)
- Maintains lightstick performance (light protection)

With its simple and efficient operation principle, CyPouch is ideal for the user !

OPENED CYPOUCH: «Bundle» Configuration

- Custom load your CyPouch to suit your task/mission by choosing which sizes and colors of lightsticks (visible/IR) thanks to the metal rings and elastic loops
- Firmly grasp the lightstick and pull down to release it from its attachment
- Then simply activate and deploy the lightstick

CLOSED CYPOUCH: «Holster» Configuration

- Custom load your CyPouch Holster to suit your task/mission by choosing which sizes and colors of lightsticks (visible/IR) thanks to elastic loops and central compartment (metal rings not used)
- Then simply activate and deploy the lightstick

100%

100% Reliable

Easy & quick to reload

Convenient
